

Computer Programming

Srinivasa Rao Satti

Course Information

Course Instructor: Srinivasa Rao Satti

Email: ssrao@snu.ac.kr

Office: 301-401

Teaching Assistants:

- Se-Young Kim
- Wooyoung Park

Email: cp2018ta@tcs.snu.ac.kr

Office: 301-412

Course Webpage: on etl

Course Information

Textbooks:

- Thinking in Java (4th Edition, Pearson International Edition), Bruce Eckel, Pearson Education (Prentice Hall), 2006.
- Building Java Programs: A Back to Basics Approach, 4th edition, Stuart Reges and Marty Stepp, Pearson, 2016.
- C++ How to Program (10th Edition, Pearson Global Edition), P. Deitel and H. M. Deitel, 2017.
- The C++ Programming Language (4th Edition, Eddison-Wesley), Bjarne Stroustrup, Pearson Education, 2013.

(Any standard C++ and Java textbook that you are comfortable with)

Evaluation

- Assignments: 35%
- Attendance: 10%
- Quiz, Participation: 10%
- Midterm: 20%
- Final Exam: 25%

Lecture Goals

- Java & C++ Programming
- Understanding the Object-Oriented programming principles
- Acquiring good programming styles
- Learning Java & C++ Object-Oriented programming methodologies
- Solving complex problems through coding in Java & C++

Lecture Plan

- Basic Java Programs
- Primitive Data and Definite Loops
- Parameters and Objects
- Conditional Execution
- Program Logic and Indefinite Loops
- File Processing
- Arrays
- Classes
- Inheritance and Interfaces

Lecture Plan Cont'd

- C++ Basics, Data Types & Pointers
- C++ Name Spaces & Operator Overloading
- C++ Class Derivation and Inheritance
- C++ Templates & Standard Library
- C++ Runtime Type Identification
- C++ Exception Handling

Cooperate on Learning

- Except for the work you hand in as your individual contributions, we encourage you to collaborate and help each other.
- If in doubt if a collaboration is legitimate: ask!
 - Don't claim to have written code that you copied from others
 - Don't give anyone else your code (to hand in for a grade)
 - When you rely on the work of others, explicitly list all of your sources – i.e., give credit to those who did the work.
- Don't study alone when you don't have to
 - Form study groups
 - Do help each other (without plagiarizing)

Questions?
